The Honorable Kevin McCarthy, Leader United States House of Representatives 2468 Rayburn House Office Building Washington, D.C. 20515

The Honorable Mitch McConnell, Leader United States Senate 317 Russell Senate Office Building Washington, D.C. 20510

The Honorable Charles Schumer, Leader United States Senate 322 Hart Senate Office Building Washington, D.C. 20510

## Re: Medications Access Must be Included in Third COVID-19 package

Dear Speaker Pelosi and Leaders McConnell, McCarthy, and Schumer:

We, the 96 undersigned organizations, appreciate the work Congress has done so far to respond to the COVID-19 pandemic. We write to strongly encourage you to include provisions regarding access to medications and supplies for people of all ages in the next legislative package.

People with chronic conditions need access to essential and lifesaving medications and supplies on a regular basis. The Centers for Disease Control and Prevention (CDC) has encouraged people who take medications to stock up on extra supplies of their medications to comply with social distancing guidelines and prepare for emergencies. However, many forms of insurance place limits on refills. Further, there are even stricter limits on medications that are controlled substances, indicated for and used to treat epilepsy, mental illnesses, cancer and other serious medical conditions.

We urge Congress to take action to assist people with chronic health conditions to protect themselves in this crisis and maintain access to their medications. Removing burdensome barriers to obtaining medications, including limits on refills or other efforts to ensure supply of these medications, will keep the people we represent out of hospitals and doctors' offices, freeing up space for those with COVID-19. It is a particular concern to maintain a consistent supply for people who take an approved medication that is being studied for use in COVID-19, such as hydroxychloroquine, which is used to treat lupus and rheumatoid arthritis

So far, CMS has encouraged flexibility in Medicare<sup>1</sup> and states have flexibilities through 1135 waivers to relax refill limits.<sup>2</sup> However, implementation is uneven, and plans and states cannot relax controlled substance guidelines on their own. Congress must take immediate, national action to ensure access to medications.

We urge Congress and the Administration to take action to address the following issues:

 Require all payers to allow for provision of an emergency supply of medications and supplies by relaxing restrictions on timing of refills and amounts, to at least the CDC-recommended extra 30day supply and up to a 90-day supply to reduce returns to the pharmacy<sup>3</sup>

<sup>&</sup>lt;sup>1</sup> https://www.cms.gov/files/document/hpms-memo-covid-information-plans.pdf

<sup>&</sup>lt;sup>2</sup> https://www.medicaid.gov/state-resource-center/disaster-response-toolkit/federal-disaster-resources/index.html

<sup>&</sup>lt;sup>3</sup> https://www.cdc.gov/cpr/prepareyourhealth/00 docs/18 295610-A PIB Prescriptions.pdf

- Ensure that these protections extend to medications that are controlled substances indicated for and used to treat epilepsy, mental illnesses, cancer and other serious medical conditions, as well as injectables
- Require all payers to waive prior authorization and utilization management requirements
- Require flexibility regarding use of mail order pharmacies, including out of state mail order pharmacies and other home delivery methods
- Require payers to relax requirements for in-person visits for refills, including allowing visits through telehealth
- Require all payers to establish policies to assist patients with cost-sharing related to their emergency supply or allow for delayed payment of out-of-pocket costs for emergency supplies
- Increase FDA monitoring and reporting of shortages to ensure consistent supply, especially existing medications approved to treat chronic conditions that may be under study or used to treat COVID-19

We appreciate your actions to date and your attention during this time. If you have any questions, contact Rachel Patterson at rpatterson@efa.org.
